ABSTRACT

This bulletin contains a summary of enrollment figures from the fifth through tenth months of the 1974-75 school year for 17 Nevada school districts. Statistics are given for certified personnel (male and female) regarding age, prior out-of-state experience, highest degree held, salary ranges by degree held, states where highest degrees were earned, and area of assignment for new teachers. The bulletin concludes with a table summary of 17 Nevada school district budgets for 1975-76 in terms of assessed valuation, numbers of special education program units, tax rate operation, tax rate debt service, and general fund receipts and expenditures.
